INDEPENDENT AUDITORS' REPORT

To the Most Reverend William Patrick Callahan
and the Diocesan Finance Council
Diocese of La Crosse

We have audited the accompanying financial statements of the Diocese of La Crosse - Administrative Offices (a nonprofit organization) which comprise the statements of financial position as of June 30, 2014 and 2013, and the related statements of activities and cash flows for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Basis for Qualified Opinion

As explained in Note 1 to the financial statements, property and equipment are not capitalized consistently and depreciation is not recorded. In our opinion, accounting principles generally accepted in the United States of America require that property and equipment be capitalized consistently and depreciated over the assets' useful life. It was not practicable to determine the effects of this omission on the financial statements.

Qualified Opinion

In our opinion, except for the effects of not recording property, equipment, and depreciation as discussed in the paragraph above, the financial statements referred to above present fairly, in all material respects, the financial position of the Diocese of La Crosse - Administrative Offices as of June 30, 2014 and 2013, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental statement of financial position, the supplemental statement of activities and the Diocesan Annual Appeal Special Report Data are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

DIOCESE OF LA CROSSE
ADMINISTRATIVE OFFICES
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - Nature of Organization and Significant Accounting Policies

Nature of Organization:

The financial statements presented are for the Diocese of La Crosse - Administrative Offices (the "Organization"). The Organization is operated to provide services and support to Diocesan parishes, schools, and organizations. Services provided include administrative services with regard to education, charitable projects, parish administration, and religious personnel activities. The Organization also provides technical and fundraising assistance to these organizations. In return, some organizations are assessed quotas.

Summary of Significant Accounting Policies:

Basis of Accounting - The financial statements of the Diocese of La Crosse - Administrative Offices have been prepared on the accrual basis of accounting and accordingly reflect all significant receivables, payables, and other liabilities.

Basis of Presentation and Net Assets - The accompanying financial statements are presented in accordance with the accounting principles generally accepted in the United States of America (U.S. GAAP) as codified by the Financial Accounting Standards Board.

Under U.S. GAAP, the Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. Net assets, revenue, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Organization are classified and reported as follows:

Unrestricted Net Assets - Net assets that are not subject to donor-imposed stipulations. Board designated net assets are unrestricted net assets that have been designated by the Finance Council as opportunity and permanent reserves for future unexpected expenditures.

Temporarily Restricted Net Assets - Net assets subject to donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Organization pursuant to those stipulations.

Permanently Restricted Net Assets - Net assets subject to donor-imposed stipulations that they be maintained permanently by the Organization.

Cash and Cash Equivalents - For financial statement purposes, the Organization considers all highly liquid unrestricted investments with an initial maturity of three months or less when purchased to be cash equivalents.

Accounts Receivable and Allowance for Doubtful Accounts - Accounts receivable consists of the balance due to the Organization from quotas billed to the various Diocesan organizations and billings for services rendered by the various offices. Management has determined an allowance for uncollectible balances based upon the analysis of prior collections and experience with individual parishes and schools.

Investments - The Organization carries investments in marketable securities with readily determinable fair values and all investments in debt securities at their fair values in the statements of financial position. Unrealized gains and losses are included in the change in net assets in the accompanying statement of activities.

DIOCESE OF LA CROSSE
ADMINISTRATIVE OFFICES
NOTES TO FINANCIAL STATEMENTS - Continued
JUNE 30, 2014 AND 2013

NOTE 1 - Nature of Organization and Significant Accounting Policies - Continued

Donated Assets - Donated marketable securities and other noncash donations are recorded as contributions at their estimated fair values at the date of donation.

Fair Value Measurements - The Organization has determined the fair value of certain assets in accordance with U.S. GAAP.

U.S. GAAP defines fair value as the exchange price that would be received for an asset in the principal or most advantageous market for the asset in an orderly transaction between market participants on the measurement date. U.S. GAAP requires that valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. U.S. GAAP also establishes a fair value hierarchy, which prioritizes the valuation inputs into three broad levels.

Level 1 inputs consist of quoted prices in active markets for identical assets that the reporting organization has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the related asset. Level 3 inputs are unobservable inputs related to the asset.

Property and Equipment - Use of operating funds for certain property acquisitions is accounted for as unrestricted designated net assets. Property and equipment are carried at cost or, if donated, at the fair value at the date of donation. The Organization capitalizes the purchases of land, buildings, and vehicles, however, not all equipment and furniture is consistently capitalized, this policy is not according to U.S. GAAP. No provision is made for depreciation of property and equipment.

Donated Property and Equipment - Donations of property and equipment are recorded as contributions at their estimated fair value at the date of donation. Such donations are reported as increases in unrestricted net assets unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted contributions. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired assets are placed in service. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Impairment of Long-Lived Assets - In accordance with U.S. GAAP, the Organization reviews its non-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recovered. If the fair value is less than the carrying amount of the asset, an impairment loss is recognized for the difference. No impairment loss has been recognized during the years ended June 30, 2014 and 2013.

Interest in Net Assets of We Belong to Christ Campaign, Inc. - In accordance with U.S. GAAP, *Transfers of Assets to a Non-Profit Organization That Raises or Holds Contributions for Others*, a specified beneficiary (Diocese of La Crosse - Administrative Offices) is required to recognize its rights to the assets held by a recipient organization when the donor has not granted the recipient organization (We Belong to Christ Campaign, Inc.) variance power. If the beneficiary and the recipient organization are financially interrelated organizations, the beneficiary is required to recognize its interest in the net assets of the recipient organization and adjust that interest for its share of the change in net assets of the recipient organization.

NOTES TO FINANCIAL STATEMENTS - Continued
JUNE 30, 2014 AND 2013

NOTE 1 - Nature of Organization and Significant Accounting Policies - Continued

Deferred Revenue - The Organization record as deferred revenue amounts billed in advance for subscriptions to the Diocesan newspaper. Deferred revenue is recognized ratably over the period(s) of service.

Collections for Transmittal - The Organization receives certain funds for the benefit of others. These custodial accounts are reflected in the financial statements as collections for transmittal.

Revenue Recognition - Contributions are recognized as revenue when they are received or unconditionally pledged. Revenue and investment income are recognized when it is earned. The Organization's revenue sources consist of service income, quota income, contributions, and investment income.

Restricted and Unrestricted Revenue and Support - Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions.

Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire (that is, when a stipulated time or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets, depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Contributed Services - Services of the clergy and religious orders have been recognized only to the extent of actual compensation paid. No computation is made for the difference between the compensation paid to these employees and the comparable compensation which would be paid to lay personnel.

Advertising - The Organization expenses advertising costs as they are incurred. Advertising expenses were \$28,636 and \$36,986 for the years ending June 30, 2014 and 2013, respectively.

Functional Allocation of Expenses - The costs of providing the various programs and activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Income Tax Status - The Diocese of La Crosse is organized as a 501(c)(3) corporation and is exempt from federal and state income taxes.

Accounting for Uncertainty in Income Taxes - U.S. GAAP requires management to evaluate tax positions taken by the Organization and recognize a tax liability (or asset) if the Organization has taken an uncertain position that more likely than not would not be sustained upon examination by a taxing authority. Management has analyzed the tax positions taken by the Organization, and has concluded that as of June 30, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Organization is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Organization will recognize future accrued interest and penalties related to unrecognized tax benefits income tax expense if incurred. The Organization is no longer subject to Federal tax examination by tax authorities for years before 2011 and state examination for years before 2010.

JUNE 30, 2014 AND 2013

NOTE 1 - Nature of Organization and Significant Accounting Policies - Continued

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Reclassification - Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation of the current year's financial statements.

Subsequent Events - The Organization has evaluated subsequent events through November 20, 2014, the date which the financial statements were available to be issued.

NOTE 2 - Concentration of Credit Risk Arising From Cash Deposits in Excess of Insured Limits

The Organization maintains its cash balances at two financial institutions with the balances insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. The Organization also maintains cash savings with St. Ambrose Financial Services, Inc., which are not insured by the FDIC. As of June 30, 2014 and 2013, uninsured balances held with St. Ambrose Financial Services, Inc. was \$2,261,505. While the Organization is exposed to custodial credit risk, the Organization has not experienced any losses in such accounts.

NOTE 10 - Endowments

The Organization's endowments include both donor-restricted endowment funds and funds designated by the Bishop and the Finance Council to function as endowments. As required by generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Finance Council to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Bishop and the Finance Council have interpreted the State Prudent Management of Institutional Funds Act (SPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Diocese classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by SPMIFA.

In accordance with SPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purposes of the organization and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the organization
- (7) The investment policies of the organization

Each of the trusts in the Endowment fund is governed by a trust document which states that the principal of the trust shall be initially valued at the carrying value and generally thereafter at the current value as determined on the last day of each fiscal year. The principal shall not be invaded and shall not be distributed except in the manner that is defined within the trust document.

NOTE 10 - Endowments - Continued

Return Objectives and Risk Parameters

The donor-designated endowment funds are part of the Non-Qualified Plans Master Trust and are invested per the Diocese of La Crosse Investment Policy Statement and its Statement of Moral, Ethical and Social Principles. Endowment assets include donor-restricted funds that the organization must hold in perpetuity and consist of the Bishop's Education Endowment Trust (BEET) funds, the Holy Cross Seminary Education Fund Endowment Trust, the Diocese of La Crosse Youth Ministry Endowment Trust and the Bishop John J. Paul Scholarship Endowment Trust. Under this investment policy, as approved by the Bishop and the Finance Council, the endowment assets are invested in investment portfolio's that are intended to produce maximum return for both long and short-term needs in a manner that is consistent with solid investment practices and relative safety of principal.

The board-designated endowment funds consist of contributions and bequests that were received by the Diocese to provide for priestly formations, the Diocesan Center, and as a memorial to Pope John Paul II. The Bishop and the Finance Council designated these funds as endowments whose balance should remain as savings accounts in St. Ambrose Financial Services, Inc. and their earnings fund the above specified activities. The interest earnings on these funds are based on the 90-day U.S Treasury bill at the beginning of each quarter and are distributed quarterly. Due to the low interest rates of the 90-day Treasury bill, in July 2009, the Offices made the decision, with the approval of the Finance Council, to adjust the interest rate to the greater of .25 percent or the 90-day Treasury bill rate as published in the Wall Street Journal.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Diocese relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a fixed income/equity asset allocation to achieve its long-term return objectives within prudent risk constraints.

Spending Policy and How the Investment Objectives Relate to Spending Policy

The Diocesan Endowment Trusts govern the distribution of their income. The trustee is to distribute all income earned at least annually; provided that if such distributions include the realized gains on investments, the total amount distributed shall not exceed the maximum distributable return on the current value of the principal determined on the first day of the fiscal year. The maximum distributable return for this purpose shall be one percent more than the percentage yield on the five year U.S. Treasury note. The trustee distributes the income to the charitable purpose that is defined in the trust document quarterly. Per the Trust documents, any undistributed funds are to be added to the Trust principal.

Each trust document establishes the expectation of long-term returns on its endowment. Accordingly, over the long term, the Organization expects the current spending policy to allow its endowment to grow overtime. This is consistent with the Organization's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

NOTE 11 - Retirement Plans

Defined Benefit Plan

The Organization sponsored a retirement plan (the "Plan") covering all full-time, lay employees of the Organization and Diocesan organizations. On June 1, 2006, the Finance Council voted to amend the Plan and freeze the accrual of any and all future benefits as of December 31, 2006. The Plan continues to be administered by Marshall and Isley Trust Company. The Organization acts as a third party administrator for organizations affiliated with the Diocese of La Crosse. The noncontributory funded pension plan provides defined benefits to substantially all full-time employees as of December 31, 2006. Amount charged to pension costs for the Organization and contributed to the Plan for year ended June 30, 2014 and 2013 was \$29,900 and \$32,500. This Plan is not required to conform to ERISA.

The various Diocesan organizations pay the cost of the Retirement Plan, as determined by the plan's actuary. Assets are held in trust by BMO Financial Group.

Benefits are based on years of service and employee's compensation during the highest average five years' earnings during his or her career prior to retirement or termination. The maximum pension benefit is \$1,200 per month, effective January 1, 1998. Contributions are made annually to fund the plan. Contributions for the plan year ended December 31, 2013 and 2012 were \$1,034,460 and \$841,196, respectively. The Organization collects and remits these monies from the Diocesan organizations.

Although the plan is not required to comply with ERISA, an actuarial valuation report is prepared annually for the plan. The following information is available as of the plan years ended December 31:

	<u>2013</u>	<u>2012</u>
Actuarial Present Value of Vested Accumulated Plan Benefits	<u>\$ 37,932,622</u>	<u>\$ 37,121,348</u>

403(b) Thrift Plan

On June 1, 2006, the Finance Council also approved the adoption of a 403 (b) Thrift Plan to provide retirement benefits for employees of the Diocese of La Crosse which became effective January 1, 2007. The Plan is funded through a group annuity contract between the Diocese of La Crosse and Mutual of America. Employees are immediately vested in the plan. The Organization contributes 2 percent of the employee's base compensation as an employer match for those employees who are at least 21 years of age, who work more than 20 hours per week and have completed one year of service. As of June 30, 2014 and 2013, the Organization contributed \$47,376 and \$51,172, respectively to this plan.

NOTE 12 - Split Interest Agreements

The Charitable Gift Annuity Fund is a Diocesan program that was started in 2003 to receive contributions under charitable gift annuities. The Diocese has segregated these assets as separate and distinct funds, independent from other funds and not to be applied toward payment of any obligations of the Diocese or any other purpose other than annuity benefits specified in the agreements. In addition, this portfolio of assets meets all requirements concerning permissible investments and mandated reserves required by law. These reserves totaled \$137,000 as of June 30, 2014 and 2013. The Diocese agrees to pay a stated return to the beneficiaries as long as they live, at which time the remaining assets will be distributed according to the donor's requests.

At June 30, 2014 and 2013, the total assets held under split-interest agreements as a part of restricted investments were \$994,514 and \$945,756, respectively. Split-interest agreement liabilities are reported at the present value of the estimated future cash flows using discount rate assumptions established upon recognition of the liabilities and are included as part of collections for transmittal.

NOTE 13 - Temporary and Permanent Restrictions

The Diocesan Annual Appeal began in fiscal year 1998. Contributions received are recorded in the current fiscal year. These funds are intended to support expenditures of the subsequent fiscal year and as such are shown as temporarily restricted net assets. Each parish entity solicits its members. Each parish is given a target amount to be raised for this Appeal. Individual parishes raising amounts in excess of their target are rebated the excess amounts as they are collected by the Diocese. Total funds collected are reported net of parish rebates. These rebates totaled \$726,028 and \$678,134 as of June 30, 2014 and 2013, respectively.
